

HOW TO MEASURE?

Note: the size chart shows body measurements. We recommend that you take your own measurements beforehand with a tape measure against the skin or a thin piece of clothing.

For the pants: First check if the particular pants are in jeans, EU or Uni size.

- Chest: Measure the circumference at the widest chest point; keep the tape measure horizontal.
- Waist: Measure the circumference at the smallest waist point; keep the tape measure horizontal.
- Hip: Measure the circumference at the widest hip point; keep the tape measure horizontal.
- Palm: Measure the circumference at the widest palm point; keep the tape measure horizontal.

IN BETWEEN TWO SIZES?

If your size is between two sizes, please check the fitting advice of the product in the product description first. Some products have a tight fit, and some products have a loose fit.

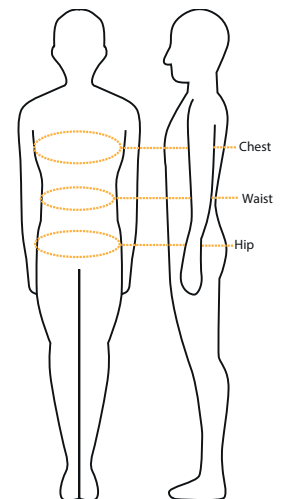

Need help finding the right size? We've got your back! Get in touch with our customer service department and we'll be happy to help you find the right size.

*ALL MEASUREMENTS ARE IN CM
